Chapter 1 by intellikat

Does Story Wars have a filter of some kind? Or is everyone just teetering on the edge of inappropriateness? Keeping some semblance of propriety in a world that has not yet required it?

Chapter 2 by Joakim

I love these questions, I will look into a forum asap where we can discuss how we want Story Wars to work.

We don't have a filter, only us admins. Our plan is to add a report function because this is the internet, people will misbehave.

I firmly believe that Story Wars should not be used as a propaganda platform. Political is okay but not forming an agenda. We really want to strive to make this a playful and creative place on the web without the hatred.

Sexual content is something that is always controversial. We would really like your input here.

My personal feeling is that I don't want to exclude people who have issues with sexual content and would prefer if it was something to see.

Chapter 3 by Luke Meyers

Yeah, I think the place to start on this is to have clear terms of service, and separate the content of the site by age restrictions. That way, the reporting button has a context around it that makes it sensible rather than rampantly open to interpretation.

Chapter 4 by Jen

So the spam machine isn't hitting story wars yet, so when I'm going to lurk the website with some of those dark web proxies. Trying to be a pervert but really can't do it because my ethics are preventing that. Yeah of course that's a good thing. Still john carpenters the thing is one of my favorite movies... .. Wow, I'm drifting away from this story. Why can't I focus anymore, will my words still reach... .. a server far far away in the usa.

Than an evil message appears:

Solve this CAPTCHA:

Be nice, please use no sexual content we use no filter to be as open as possible!

My computer is taken over by a weird spider a new virus that behaves as the google spider. But this one doesn't has a nice agenda, I think.

I hope, that I still reach this server far away. But it's difficult to combat this evil beast.

... .. oh no..
